InnoFlue®

Polypropylene Vent Systems

Centrotherm

Zero Radius 8" Elbows (87° / 45° / 30° / 15°)

For offsets or changes in the direction of a vent system. As a replacement to our ISEL series elbow, zero radius 8" elbows provide the same trusted engineering, but with a smaller footprint.

Go further in less space with zero degree turning radius

Zero degree turning radius elbows allow for offsets or changes in the direction of the vent system in less space than larger degree radius fittings.

Shorter Radius

- > Less space required

100% Injection Molded

- > Quality Integrated in each part
- > Competitively Priced

Zero Radius 8" Elbows
